

To Whom it May Concern

I employed Sumari Gildenhuys to help me during the Month of April 2010 with the production of 24 illuminated addresses / scrolls for the City of Cape Town. She did a wide range of work for me, helping with pen and computer design, the organisation of the studio and the running of errands. I found her smart and pleasant to work with. She was versatile, efficient, learned quickly, showed initiative, did not shy away from menial tasks, worked hard and communicated well. I have no hesitation in recommending her.
